

# Rexx Community Questionnaire (Preliminary Results)

# General Overview

- **Average age:**
  - 65.3 years
- **Professional Background:**
  - Computer Science, Software Engineering, ...
- **Years with Rexx:**
  - 32.1 years
  - IBM / Mainframe
- **Programming per week**
  - 39.8% between 1 to 10 hours
  - 29.6% between 11 to 20 hours

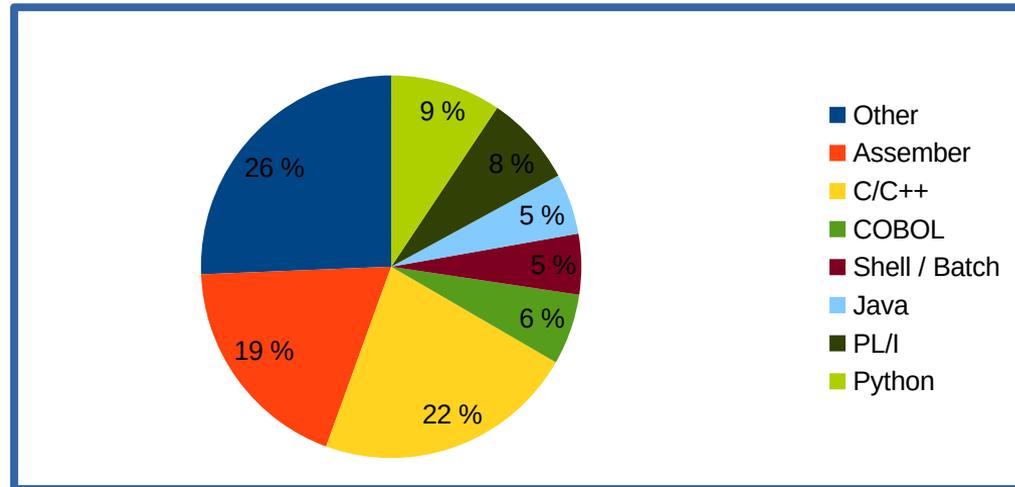

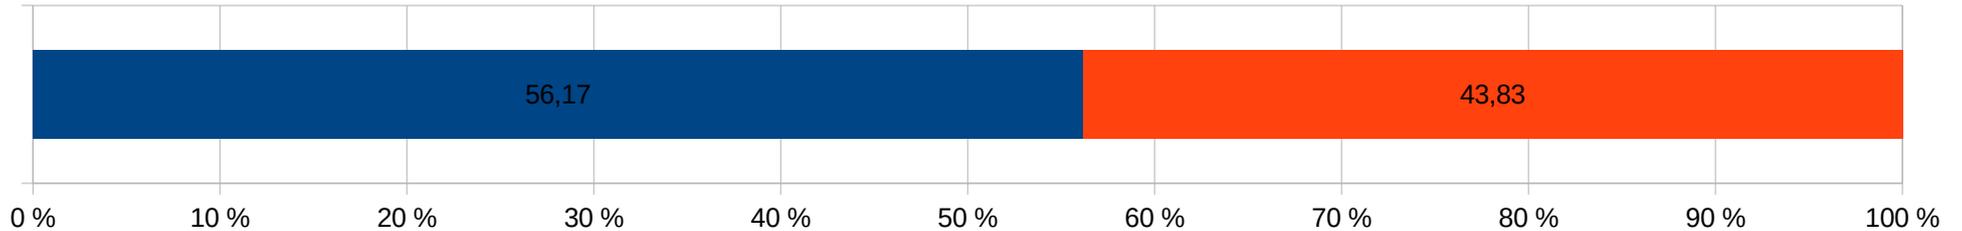

# Programming

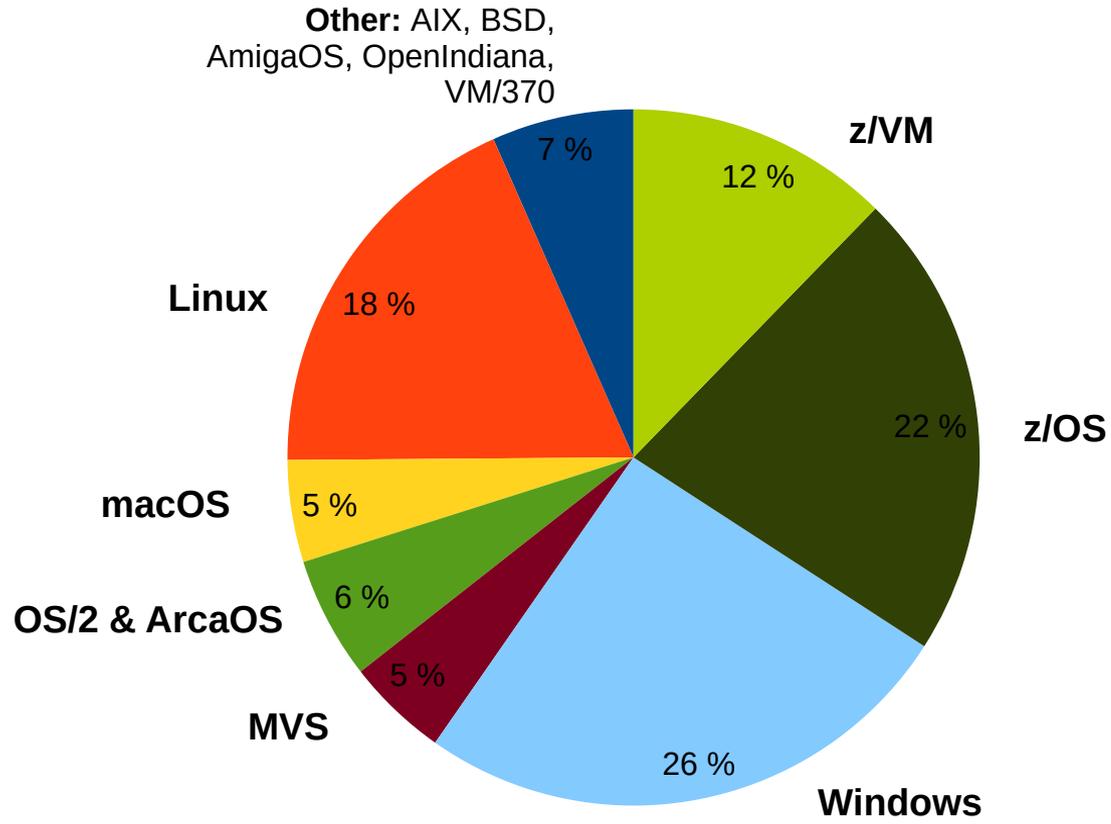

Rexx Language Family

Other Languages

# Operating Systems

- **Together with: (unordered)**

- REXX/SQL, REXX/Curl, OLE, BSF4ooREXX, CMS/TSO Pipelines, ooSQLite, GCI, rexxodbc, rxsock, rexxutil, REXX/WS, REXX/DW, REXX/EEC, REXX/JSON, rxmath, rxMUI, ooDialog, ...
- A lot of self-created libraries & frameworks

- **Some examples: (unordered)**

- Utilities, Adhoc scripts, automation, web development, data processing and visualization, testing, UIs, Marko language with Compiler, XEDIT family ...

# Requirements

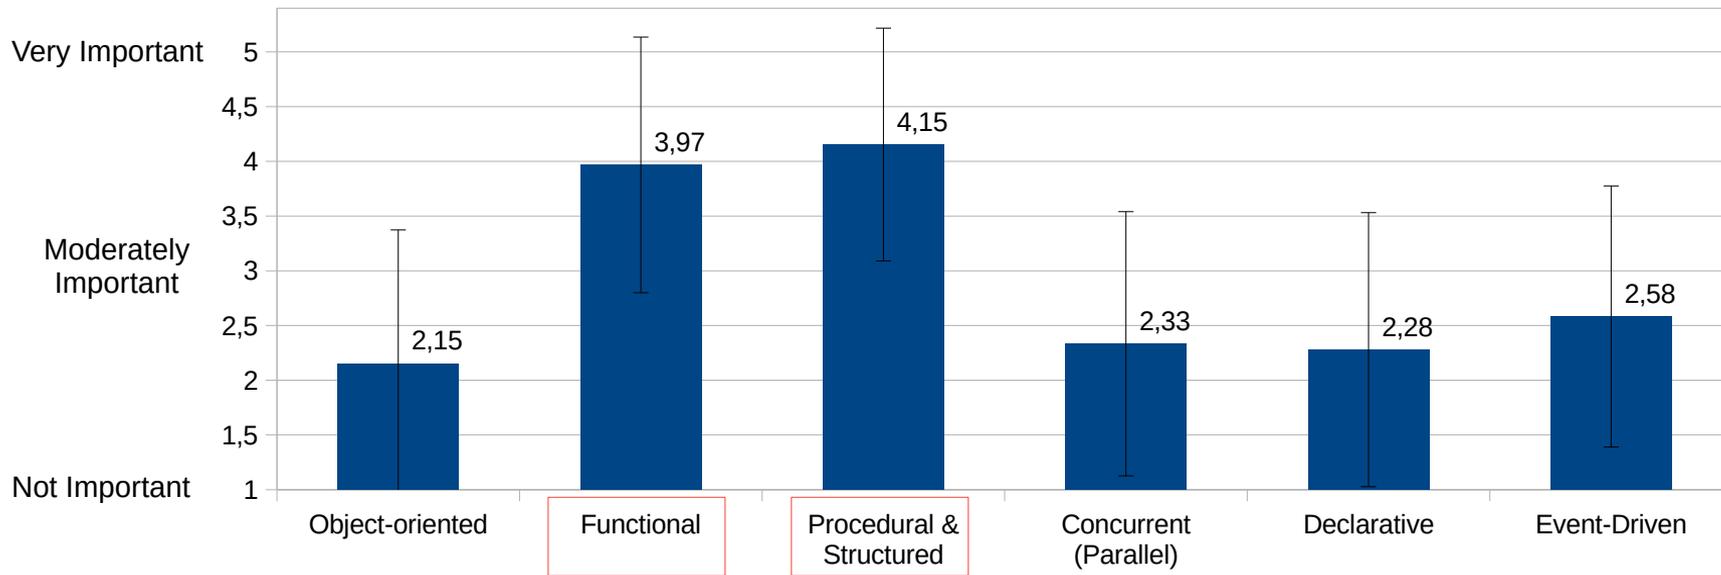

- Top 5 pre-formulated requirements
  1. **Readability** (Easy to maintain)
  2. **Simplicity** (Easy to learn)
  3. **Consistency** (Uniformity in syntax and semantics)
  4. **Features** (Wide range of built-in functions)
  5. **Documentation** (Manuals, learning material, ...)
- Some stated requirements:
  - **Multiple mentions:** Open-Source, IDE like VisPro/REXX or Visual Studio, Backward Compatibility, ooRexx in Browser, Regular Expressions, Concurrency, ...
  - **Single mentions:** Geometrical computation, UTF-8, Native window/screen management (UI), ...

# Programming Paradigm

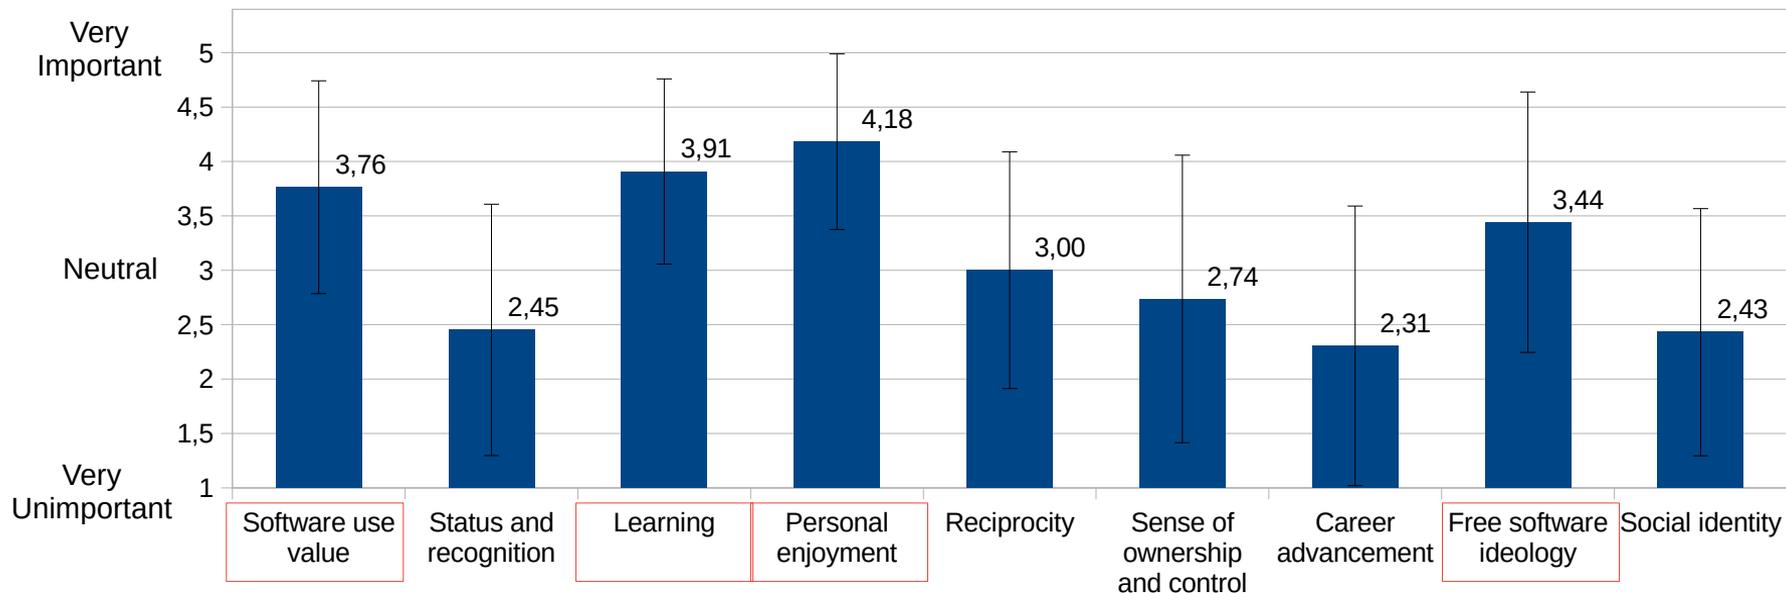

- Which programming paradigms are most important to you?

- **Object Model:** 1. Encapsulation, 2. Inheritance, 3. Interfaces/Abstract Classes, ...
  - Polymorphism & Reflection were considered as relative unimportant

# Open-Source Community

- Open source software is generally regarded as important
- 52.4% of participants contribute to further development
  - Most between 1 and 10 hours per week
  - Most frequent forms of contribution: Discussion, Bug reporting, Code development, User support, ...

- A lot of gratitude:
  - “REXX Rocks!”
  - “I am very happy that a small group of very competent people continues to evolve ooRexx”
  - “Just thanks to the open source REXX community for all the time and effort they've invested. I've benefited a lot from it.”
  - “THANK YOU for continued efforts to promote the language. “
- Suggestions for the future:
  - Attract young people
  - Improve education and lower entrance barrier
    - ToDo-List / wanted & needed skills to support community
  - Release more samples, programmes and archives
  - Include more target environments:
    - OS/2, z/OS, z/VM, macOS installer (Regina REXX), Linux Distributions
